## LIVERPOOL COTTON.

NEW YORK, Nov. 1.—The cotton market showed continued weakeness during today's early trading. After opening at a decline of 20 to 44 points, there was a slight huige on the reports of frosts in the belt and covering attracted by the 27-cent level for January contracts. Offerings, however, were heavy on the bearish view of large available supplies in the South with a continued absence of trade buying in any important volume, and before the end of the first hour active manths were 15 to 46 points hat lower with December selling at 21.80 and January 23.38. Liverpool was weak and sold considerable cotton here during the early trading, while there also was selling by spenouses and renewed pressure from Wall street sources.

A private crop estimate of 11.100,000 bales, excluding linters, served to stimulate some covering during the sales.
